A Reports issued and fees

Executive Summary

Purpose

Our Annual Audit Letter (Letter) summarises the key findings arising from the work that we have carried out at the Royal Borough of Greenwich Council (the Council) for the year ended 31 March 2020.

This Letter is intended to provide a commentary on the results of our work to the Council and external stakeholders, and to highlight issues that we wish to draw to the attention of the public. In preparing this Letter, we have followed the National Audit Office (NAO)'s Code of Audit Practice and Auditor Guidance Note (AGN) 07 – 'Auditor Reporting'. We reported the detailed findings from our audit work to the Council's Audit and Risk Management Panel as those charged with governance in our Audit Findings Report on 24 November 2020 and Full Council on 25 November 2020.

Respective responsibilities

We have carried out our audit in accordance with the NAO's Code of Audit Practice, which reflects the requirements of the Local Audit and Accountability Act 2014 (the Act). Our key responsibilities are to:

- give an opinion on the Council's financial statements (section two)
- assess the Council's arrangements for securing economy, efficiency and effectiveness in its use of resources (the value for money conclusion) (section three).

In our audit of the Council's financial statements, we comply with International Standards on Auditing (UK) (ISAs) and other guidance issued by the NAO.

Our work

Materiality	We determined materiality for the audit of the Council's financial statements to be £14,300,000, which is 1.3% of the Council's	
waterianty	gross cost of services.	
Financial Statements opinion	on We gave an unqualified opinion on the Council's financial statements on 26 November 2020.	
	We included an emphasis of matter paragraph in our report in respect of the uncertainty over valuations of the Council's land and buildings and the Authority's share of the pension fund's property, private equity and alternative investments as at 31 March 2020 given the Coronavirus pandemic. This does not affect our opinion that the statements give a true and fair view of the Council's financial position and its income and expenditure for the year.	
Whole of Government Accounts (WGA)	We are in the progress of completing our work on the Council's consolidation return following guidance issued by the NAO.	
Use of statutory powers	We did not identify any matters which required us to exercise our additional statutory powers.	

Executive Summary

Value for Money arrangements	We were satisfied that the Council put in place proper arrangements to ensure economy, efficiency and effectiveness in its use of resources. We reflected this in our audit report to the Council on 26 November 2020.
Certificate	We are unable to certify that we have completed the audit of the financial statements of the Royal Borough of Greenwich until we have completed our work on the Whole of Government accounts.

Working with the Council

The outbreak of the Covid-19 coronavirus pandemic has had a significant impact on the normal operations of the Council.

The Council has faced extensive front-line challenges as a result of the pandemic such as administration of grants to businesses, closure of schools and car parks with additional complexities of reopening services under new government guidelines. The Council has responded well to the challenges caused by the pandemic. The Council took the additional available time to prepare the financial statements ensuring that internal checking procedures were completed and robust working papers were available for the start of the audit in September. This has proven to be a sensible decision and has resulted in a robust set of financial statements and a good set of working papers provided to the audit team.

Throughout the closedown period we held regular meetings with the Council's key finance staff to discuss the impact of Covid-19. We also discussed the financial implications in terms of asset valuations, going concern and provision for credit losses in advance of the submission of the financial statements. There has not been any changes in key financial processes that impacted on our audit approach. Restrictions for non-essential travel have meant both teams have had to be flexible in approaches to sharing information. We agreed to use video calling to watch the finance team run the required reports to gain assurance over the completeness and accuracy of information produced by the Council.

We made more use of conference calls and emails to resolve audit queries. Both teams utilised a query log to track and resolve outstanding items. Weekly meetings were held with senior finance staff to highlight key outstanding issues and findings to date, ensuring that the audit process was as smooth as possible. The audit was completed ahead of the 30 November 2020 revised deadline.

We would like to record our appreciation for the assistance and co-operation provided to us during our audit by the Council's staff.

Grant Thornton UK LLP
December 2020

Our audit approach

Materiality

In our audit of the Council's financial statements, we use the concept of materiality to determine the nature, timing and extent of our work, and in evaluating the results of our work. We define materiality as the size of the misstatement in the financial statements that would lead a reasonably knowledgeable person to change or influence their economic decisions.

We determined materiality for the audit of the Council's financial statements to be £14,300,000, which is 1.3% of the Council's gross cost of services. We used this benchmark as, in our view, users of the Council's financial statements are most interested in where the Council has spent its revenue in the year.

We set a lower threshold of £715,000, above which we reported errors to the Audit and Risk Management Panel in our Audit Findings Report.

The scope of our audit

Our audit involves obtaining sufficient evidence about the amounts and disclosures in the financial statements to give reasonable assurance that they are free from material misstatement, whether caused by fraud or error. This includes assessing whether:

- the accounting policies are appropriate, have been consistently applied and adequately disclosed;
- the significant accounting estimates made by management are reasonable; and
- the overall presentation of the financial statements gives a true and fair view.

We also read the remainder of the Statement of Accounts to check it is consistent with our understanding of the Council and with the financial statements included in the Statement of Accounts on which we gave our opinion.

We carry out our audit in accordance with ISAs (UK) and the NAO Code of Audit Practice. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Our audit approach was based on a thorough understanding of the Council's business and is risk based.

We identified key risks and set out overleaf the work we performed in response to these risks and the results of this work.

Significant Audit Risks

These are the significant risks which had the greatest impact on our overall strategy and where we focused more of our work.

Risks identified in our audit plan	How we responded to the risk	Findings and conclusions
Covid-19 The global outbreak of the Covid-19 virus pandemic has led to unprecedented uncertainty for all organisations, requiring urgent business continuity arrangements to be implemented. We expect current circumstances will have an impact on the production and audit of the financial statements for the year ended 31 March 2020, including and not limited to; Remote working arrangements and redeployment of staff to critical front line duties may impact on the quality and timing of the production of the financial statements, and the evidence we can obtain through physical observation. Volatility of financial and property markets will increase the uncertainty of assumptions applied by management to asset valuation and receivable recovery estimates, and the reliability of evidence we can obtain to corroborate management estimates. Financial uncertainty will require management to reconsider financial forecasts supporting their going concern assessment	 As part of our audit work we have: Worked with management to understand the implications of the response to the Covid-19 pandemic on the Council's ability to prepare the financial statements including updating financial forecasts and assessment of the implications for our materiality calculations. Liaised with other audit suppliers, regulators and government departments to co-ordinate practical cross-sector responses to issues as and when they arose. Evaluated the adequacy of the disclosures in the financial statements that arose in light of the Covid-19 pandemic. Evaluated whether sufficient audit evidence could be obtained through remote technology. Evaluated whether sufficient audit evidence could 	The Council's property valuation specialists reported that valuations of land and buildings were subject to 'material valuation uncertainty' as at 31 March 2020, as a result of the impact of the Covid-19 pandemic on market activity in the real estate sector, meaning that less certainty, and a higher degree of caution, should be placed on the recorded valuation of these assets than would otherwise be the case. In addition, the fund managers for the Pension Fund's pooled property, Private Equity and diversified alternatives investments declared material valuation uncertainties around the valuation of these investments. This impacts upon the valuation of the net defined benefit liability in the Council's balance sheet.
and whether material uncertainties for a period of at least 12 months from the anticipated date of approval of the audited financial statements have arisen. Disclosures within the financial statements will require significant revision to reflect the unprecedented situation and its impact on the preparation of the financial statements as at 31 March 2020 in accordance with IAS1, particularly in relation to material uncertainties.	 be obtained to corroborate significant management estimates. Evaluated management's assumptions that underpin the revised financial forecasts and the impact on management's going concern assessment. Discussed with management the implications for our audit report where we have been unable to obtain sufficient audit evidence. 	Management have disclosed these uncertainties in Note 32 to the Council's financial statements. These disclosures were referred to in our auditor's report in emphasis of matter paragraphs. These references do not constitute qualification of the audit opinion.

Significant Audit Risks - continued

These are the significant risks which had the greatest impact on our overall strategy and where we focused more of our work.

Risks identified in our audit plan	How we responded to the risk	Findings and conclusions
Valuation of land and buildings The Council's pension fund net liability, as reflected in its balance sheet as the net defined benefit liability, represents a significant estimate in the financial statements. The pension fund net liability is considered a significant estimate due to the size of the numbers involved and the sensitivity of the estimate to changes in key assumptions. We therefore identified valuation of the Council's pension fund net liability as a significant risk, which was one of the most significant assessed risks of material misstatement.	 Evaluated management's processes and assumptions for the calculation of the estimate, the instructions issued to valuation experts and the scope of their work. Evaluated the competence, capabilities and objectivity of the valuation expert. Written to the valuer to confirm the basis on which the valuation was carried out to ensure that the requirements of the Code are met. Engaged our own valuer to assess the instructions to the Council's valuer, the Council's valuer's report and the assumptions that underpin the valuation. Tested revaluations made during the year to see if they had been input correctly into the Council's asset register. Assessed the value of a sample of assets in relation to market rates for comparable properties. Tested a sample of beacon properties in respect of council dwellings to consider whether their valuation assumptions are appropriate and whether they are truly representative of the other properties within that beacon group. 	As discussed under 'Covid-19' above, the Council's property valuation specialists reported that valuations of land and buildings and council dwellings were subject to 'material valuation uncertainty' as at 31 March 2020, as a result of the impact of the Covid-19 pandemic on market activity in the real estate sector, meaning that less certainty and a higher degree of caution should be placed on the recorded valuation of these assets than would otherwise be the case. Management have disclosed this uncertainty in Note 32 to the financial statements. This disclosure was referred to in our auditor's report in an emphasis of matter paragraph. This does not constitute a qualification of the audit opinion.

Significant Audit Risks - continued

These are the significant risks which had the greatest impact on our overall strategy and where we focused more of our work.

Risks identified in our audit plan	How we responded to the risk	Findings and conclusions
Valuation of net pension liability The Council's pension fund net liability, as reflected in its balance sheet as the net defined benefit liability, represents a significant estimate in the financial statements. The pension fund net liability is considered a significant estimate due to the size of the numbers involved and the sensitivity of the estimate to changes in key assumptions. We therefore identified valuation of the Council's pension fund net liability as a significant risk, which was one of the most significant assessed risks of material misstatement.	 As part of our audit work we have: Updated our understanding of the processes and controls put in place by management to ensure that the Council's pension fund net liability is not materially misstated and evaluate the design of the associated controls. Evaluated the instructions issued by management to their management expert (an actuary) for this estimate and the scope of the actuary's work. Assessed the competence, capabilities and objectivity of the actuary who carried out the Council's pension fund valuation. Assessed the reasonableness of the actuary's assumptions and calculations in-line with the relevant standards, including their consideration of the ongoing impact of the McCloud and Guaranteed Minimum Pension cases. Assessed the accuracy and completeness of the information provided by the Council to the actuary to estimate the liability. Tested the consistency of the pension fund asset and liability and disclosures in the notes to the core financial statements with the actuarial report from the actuary. Undertook procedures to confirm the reasonableness of the actuarial assumptions made by reviewing the report of the consulting actuary (as auditor's expert) and performing any additional procedures suggested within the report. Obtained assurances from our audit of the Pension Fund as to the controls surrounding the validity and accuracy of membership data, contributions data and benefits data sent to the actuary by the pension fund and the fund assets valuation in the pension fund financial statements. 	As discussed under 'Covid-19' above, the fund managers for the Pension Fund's pooled property, Private Equity and Diversified Alternative investments reported that valuations of these investments were subject to 'material valuation uncertainty' as at 31 March 2020, as a result of the impact of the Covid-19 pandemic, meaning that less certainty, and a higher degree of caution, should be placed on the recorded valuation of these assets than would otherwise be the case. As 90% of the Pension Fund's assets are attributable to the Council as the administering authority for the Fund, this material uncertainty impacts in turn upon the valuation of the net defined benefit liability in the Council's balance sheet. Management have disclosed this uncertainty in Note 32 to the financial statements. This disclosure was referred to in our auditor's report in an emphasis of matter paragraph. This does not constitute a qualification of the audit opinion. A few minor presentational amendments were made to the pensions liability disclosure note.

Significant Audit Risks - continued

These are the risks which had the greatest impact on our overall strategy and where we focused more of our work.

Risks identified in our audit plan	How we responded to the risk	Findings and conclusions
Management override of internal controls Under ISA (UK) 240 there is a non-rebuttable presumed risk that the risk of management over-ride of controls is present in all entities. In particular journals, management estimates and transactions outside the course of business are areas susceptible to management override.	 As part of our audit work we have; Evaluated the design effectiveness of management controls over journals. analysed the journals listing and determine the criteria for selecting high risk unusual journals. Tested unusual journals recorded during the year and after the draft accounts stage for appropriateness and corroboration. Gained an understanding of the accounting estimates and critical judgements applied made by management and consider their reasonableness with regard to corroborative evidence. Evaluated the rationale for any changes in accounting policies, estimates or significant unusual transactions. 	We have not identified any material issues from our work.

Audit of the Financial Statements for Pension Fund

Pension Fund Significant Audit Risks

These are the risks which had the greatest impact on our overall strategy and where we focused more of our work on the pension fund.

Risks identified in our audit plan	How we responded to the risk	Findings and conclusions
The global outbreak of the Covid-19 virus pandemic has led to unprecedented uncertainty for all organisations, requiring urgent business continuity arrangements to be implemented. We expect current circumstances will have an impact on the production and audit of the financial statements for the year ended 31 March 2020, including and not limited to; Remote working arrangements and redeployment of staff to critical front line duties may impact on the quality and timing of the production of the financial statements, and the evidence we can obtain through physical observation. Volatility of financial and property markets will increase the uncertainty of assumptions applied by management to asset valuation, and the reliability of evidence we can obtain to corroborate management estimates. For instruments classified as fair value through profit and loss there may be a need to review the Level 1-3 classification of the instruments if trading may have reduced to such an extent that quoted prices are not readily and regularly available and therefore do not represent actual and regularly occurring market transactions. Whilst the nature of the Fund and its funding position (i.e. not in a winding up position or no cessation event) means the going concern basis of preparation remains appropriate management may need to consider whether material uncertainties for a period of at least 12 months from the anticipated date of approval of the audited financial statements have arisen; and Disclosures within the financial statements will require significant revision to reflect the unprecedented situation and its impact on the preparation of the financial statements as at 31 March 2020 in accordance with IAS1, particularly in relation to material uncertainties.	 As part of our audit work we have; Worked with management to understand the implications the response to the Covid-19 pandemic had on the pension fund's ability to prepare the financial statements and update financial forecasts and assessed the implications for our materiality calculations. The draft financial statements were provided on 30 June 2020. Evaluated the adequacy of the disclosures in the financial statements that arose in light of the Covid-19 pandemic. Evaluated whether sufficient audit evidence could be obtained through remote technology. Evaluated whether sufficient audit evidence could be obtained to corroborate significant management estimates such as the investment valuations. Evaluated management's assumptions that underpin the revised financial forecasts and the impact on management's going concern assessment. Discussed with management the implications for our audit report where we have been unable to obtain sufficient audit evidence. 	Our audit opinion was unqualified including an Emphasis of Matter paragraph, highlighting the material uncertainties caused by Covid-19 disclosed by the Pension Fund Investment Managers in their valuation of Private Equity, Property and diversified alternative investments. The Emphasis of Matter is not a modified or qualified opinion.

Audit of the Financial Statements Pension Fund

Pension Fund Significant Audit Risks - continued

These are the risks which had the greatest impact on our overall strategy and where we focused more of our work on the pension fund.

Risks identified in our audit plan	How we responded to the risk	Findings and conclusions
Management override of internal controls Under ISA (UK) 240 there is a non-rebuttable presumed risk that the risk of management over-ride of controls is present in all entities. In particular journals, management estimates and transactions outside the course of business are areas susceptible to management override.	 As part of our audit work we have; Reviewed entity controls. Reviewed accounting estimates, judgements and decisions made by management. Reviewed unusual significant transactions. 	We have not identified any material issues from our work.
Change in custodian Under ISA 315 significant risks often relate to significant non-routine transactions. The Fund changed custodian State Street to Northern Trust as at 1 October 2019. With highly material balances being transitioned there is a risk that assets could be misappropriated. There is also the risk that assets are recorded incorrectly	 As part of our audit work we have; Gained and understanding of the Fund's process to ensure that assets are correctly transferred between custodians. Reviewed and tested reconciliations back to State Street and Northern Trust records to ensure the completeness of assets transferred. Reconciled Northern Trust balances to fund managers at 31 March 2020. 	We have not identified any material issues from our work.

Audit of the Financial Statements Pension Fund

Pension Fund Significant Audit Risks - continued

These are the risks which had the greatest impact on our overall strategy and where we focused more of our work on the pension fund.

Risks identified in our audit plan	How we responded to the risk	Findings and conclusions
Valuation of level 3 investments The Fund values its investments on an annual basis to ensure that the carrying value is not materially different from the fair value at the financial statements date. By their nature Level 3 investment valuations lack observable inputs. These valuations therefore represent a significant estimate by management in the financial statements due to the size of the numbers involved (£206 million) and the sensitivity of this estimate to changes in key assumptions Under ISA 315 significant risks often relate to significant nonroutine transactions and judgemental matters. Level 3 investments by their very nature require a significant degree of judgement to reach an appropriate valuation at year end. Management utilise the services of investment managers and/or custodians as valuation experts to estimate the fair value as at 31 March 2020.	 design of the associated controls. Reviewed the nature and basis of estimated values and consider what assurance management has over the year end valuations provided for these types of investment. 	Our audit opinion was unqualified including an Emphasis of Matter paragraph, highlighting the material uncertainties caused by Covid-19 disclosed by the Pension Fund Investment Managers in their valuation of Private Equity, Property and diversified alternative investments. The Emphasis of Matter is not a modified or qualified opinion.

© 2020 Grant Thornton UK LLP | Annual Audit Letter | December 2020

Audit opinion

We gave an unqualified opinion on the Council's financial statements on 26 November 2020.

Preparation of the financial statements

The Council presented us with draft financial statements at the end of August 2020 in accordance with the agreed timescale, and provided a good set of working papers to support them. The finance team responded promptly and efficiently to our queries during the course of the audit.

Issues arising from the audit of the financial statements

We reported the key issues from our audit to the Council's Audit and Risk Management Panel on 24 November 2020 and to Full Council on 26 November 2020. There were no significant amendments made to the financial statements as a result of the audit.

Annual Governance Statement and Narrative Report

We are also required to review the Council's Annual Governance Statement and Narrative Report. It published them on its website in the draft Statement of Accounts in August 2020.

Both documents were prepared in line with the CIPFA Code and relevant supporting guidance. We confirmed that both documents were consistent with the financial statements prepared by the Council and with our knowledge of the Council.

Pension fund accounts

We gave an unqualified opinion on the pension fund accounts of Royal Borough of Greenwich Pension Fund on 26 November 2020. We also reported the key issues from our audit of the pension fund accounts to the Council's to the Council's Audit and Risk Management Panel on 24 November 2020 and to Full Council on 26 November 2020. There were no significant amendments made to the financial statements as a result of the audit.

Whole of Government Accounts (WGA)

We are still undertaking our work on the Council's Whole of Government Accounts.

Certificate of closure of the audit

We are unable to certify that we have completed the audit of the financial statements of the Royal Borough of Greenwich until we have completed our work on the Whole of Government accounts.

Value for Money conclusion

Background

We carried out our review in accordance with the NAO Code of Audit Practice, following the guidance issued by the NAO in April 2020 which specified the criterion for auditors to evaluate:

In all significant respects, the audited body takes properly informed decisions and deploys resources to achieve planned and sustainable outcomes for taxpayers and local people.

Key findings

Our first step in carrying out our work was to perform a risk assessment and identify the risks where we concentrated our work.

The risks we identified and the work we performed are set out overleaf.

As part of our Audit Findings report agreed with the Council in November 2020, we agreed recommendations to address our findings.

Overall Value for Money conclusion

We are satisfied that in all significant respects the Council put in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources for the year ending 31 March 2020.

Value for Money conclusion

Risks identified in our audit plan How we responded to the risk **Findings and conclusions** Financial sustainability As part of our work we have: The financial outlook for the Council remains challenging. There are no complex transactions which store up future debt, no complex groups structures, no risky investments, a reasonable debt ratio. This means that addressing the challenges of the Pandemic are based on the management of routine income and expenditure transactions which

are clear and transparent. This reflects well on the Council's governance

arrangements in the austerity era.

A. Reports issued and fees

We confirm below our final reports issued and fees charged for the audit and confirm the fees for the provision of non audit services.

Reports issued

Report	Date issued
Audit Plan	February 2020
Audit Findings Report	November 2020
Annual Audit Letter	December 2020

Fees

	Scale Fee	Agreed Planned Fee	Agreed Actual fees £
Statutory audit	149,820	184,820	212,543
Audit of Pension Fund	16,170	25,000	28,750
Total fees	165,990	209,820	241,293

Audit fee variation

As outlined in our audit plan, the 2019-20 scale fee published by PSAA of 149,820 assumes that the scope of the audit does not significantly change. There are a number of areas where the scope of the audit has changed, which has led to additional work.

Fee variations have been agreed with management, Audit and Risk Management Panel and Full Council, but are subject to PSAA approval.

A. Reports issued and fees

Fee variation for the Council			
Area	Reason	Fee Agreed	
Raising the bar increased challenge and reduction in materiality.	The Financial Reporting Council (FRC) has highlighted that the quality of work by all audit firms needs to improve across local audit. This will require additional supervision and leadership, as well as additional challenge and scepticism in areas such as journals, estimates, financial resilience and information provided by the entity. For major audits, we have also reduced the materiality level, reflecting the higher profile of local audit. This will entail increased scoping and sampling.	£11,500	
Pensions – IAS 19	We have increased the granularity, depth and scope of coverage, with increased levels of sampling, additional levels of challenge and explanation sought, and heightened levels of documentation and reporting.	£4,000	
PPE Valuation – work of experts	We have engaged our own audit expert – (Wilkes, Head & Eve) and increased the volume and scope of our audit work to ensure an adequate level of audit scrutiny and challenge over the assumptions that underpin PPE valuations. We estimate that the cost of the auditors expert will be in the region of £5,000. The 2019/20 year also included detailed work on beacons.	£11,500	
Welfare benefit expenditure	The PSAA approved fee structure is designed assuming that the same auditing body will perform the External Statutory Audit and the Housing Benefit Certification, giving a reduced audit fee due to cross subsidisation in workload. Greenwich has a history of complex welfare benefit expenditure work, as is illustrated by the qualification letter and volume of 40+ work completed, this work was used to give us assurance during the external audit and so part of this must still be completed for external audit purposes even though it is not then also used for the certification. Since the Housing Benefit Certification work is no longer provided by Grant Thornton these economies in testing the welfare benefit expenditure are lost, and so an additional fee must be levied to make up the shortfall	£5,000	
New standards /developments	Additional work will be required for disclosures required in 2019/20 under IAS8	£3,000	
Additional Covid costs 15%	 The impact of Covid-19 on the audit of the financial statements for 2019/20 has been multifaceted. This includes: Revisiting planning - we have needed to revisit our planning and refresh risk assessments, materiality and testing levels. This has resulted in the identification of a significant risk at the financial statements level in respect of Covid-19 necessitating the issuing of an addendum to our original audit plan as well as additional work on areas such as going concern and disclosures in accordance with IAS1 particularly in respect to material uncertainties. Management's assumptions and estimates - there is increased uncertainty over many estimates including investment valuations. We have include an Emphasis of Matter in the Audit Report in respect of the material uncertainty on property values. Remote working – the most significant impact in terms of delivery is the move to remote working. We, as other auditors, have experienced delays and inefficiencies as a result of remote working. 	£27,723	
Total		£62,723
