

# Royal Borough of Greenwich social housing asset data

## Introductory Statement

There are two different values for our housing provided under the Transparency code, EUV-SH and market value. EUV-SH stands for 'existing use value - social housing' and is the lower of the two.

The EUV-SH value of each property has been used to determine valuation band it is included in, the market value is also given for information.

This valuation is set at a rate of 25% of the market value. This has been determined by the Department of Communities and Local Government (DCLG), and represents the value of the properties while tenanted.

Both valuations are given in the interests of a complete understanding of the value of the council's property portfolio and is not intended to in any way suggest that tenancies should end in order to realise the full market value.
