PROPOSAL	T1 mature Sycamore - remove limb overhanging road at a low level. This tree had previously been protected by another large Sycamore on the windward side which has now been removed. As a result there is virtually no growth on T1 on one side and it has not grown to deal with the stresses of the wind that are now exerted upon it. The limb growing right across the road through Corner Green has gradually been getting lower and lower and is now becoming potentially hazardous to vehicles. It is also showing signs of weakness by longitudinal cracking along its length roughly 2m from the branch union.
